

Decorating your biOrb Winter White

To get this look you will need

- 1 x P60 (60L) Life Collection Aquarium (in Ice White)
- 1 x (A) Large Samuel Baker Pebble Sculpture in White
- 4 x (B) Feng Shui Pebble Packs in Pure White
- 4 x (C) Winter Fern Easy Plant Packs (medium only)

How to decorate your aquarium

1. Unpack your accessories and rinse under running water.
2. Making sure there are no fish or Ceramic Media in the way, lower the White Pebble Sculpture (A) into the aquarium, over the bubble tube and rotate to desired position.
3. Gently place the rinsed Feng Shui pebbles (B), a handful at a time, around the base of the sculpture working from the centre of the aquarium to the outside edges until the Ceramic Media is covered.
4. Drop the Easy Plants (C) into your aquarium one by one, arranging them on either side of the Pebble Sculpture with the largest at the back and smallest at the front, for a natural look.
